

Benchmark Corp is Chosen by D2iQ to Lead Their Enterprise Container Platform Growth in Canada

PRESS RELEASE

D2iQ integrates with Benchmark Corp to lead the Canadian market using their Cloud Native Platforms and Application Management which enables enterprise clients to continuously deploy across clouds. In this modern era, enterprises look for expertise in Kubernetes and Benchmark is exceptionally positioned to assist those clients throughout Canada.

Toronto, Ontario: July 21, 2020 – Benchmark Corp. has added D2iQ to its suite of Cloud Native solutions. Benchmark Corp. is a leading Canadian software solution provider focused on open source technology to optimize operations, boost productivity and support scalable growth.

“D2iQ allows us to move clients onto a fully supported Kubernetes platform as we continue to transform customer’s businesses. A lot of clients are looking to Benchmark Corp. for a way to standardize and manage across multi-cloud, hybrid, and on-premise deployments of cloud native technologies and D2iQ is the key to do that.” said Luc Villeneuve, president of Benchmark Corp.

“We are excited to welcome Benchmark as part of the D2iQ partner community,” said Kenny Smith, director of channels at D2iQ. “As today’s enterprises look for expertise in the growing adoption of Kubernetes, Benchmark is uniquely positioned to support clients throughout Canada. We look forward to bringing best-in-class knowledge with them across many verticals, including financial services, government, healthcare, manufacturing, retail and telecommunications.”

About Benchmark Corp.

Founded in 2003, Benchmark is a proven Canadian IT solutions provider that delivers leading-edge expertise and custom solutions, with flexible financing, to its long-term commercial and enterprise customers.
